| Y | T | Z | L | A | M | 1 | C | E | D | V | Z | Y |  | X | W | V | F | U |

WORDLIST: Add, Algebra, Angle, Area, Average, Calculate, Calculator, Count, Decimal, Divide, Dual, Edit, Equal, Formula, Four, Fraction, Large, Maze, Mean, Multiply, Number, One, Part, Place, Point, Product, Pronumeral, Ratio, Read, Subtract, Sum, Two, Three, Volume
2. From the word list, choose the correct word for each of these:
a. The result of adding two or more numbers
b. The cube root of 27
c. The size of a plane surface
d. Having two parts
e. Maths that uses letters (like $x$ or $y$ ) in place of unknown values
f. The result of multiplying two or more numbers
g. It has no size, only position
h. Another word for average
i. The $\qquad$ for the area of a circle is $\Pi r^{2}$
j. The amount of turn between two straight lines with a common vertex $\square$

## Solutions

2.
a. The result of adding two or more numbers
b. The cube root of 27
c. The size of a plane surface
d. Having two parts
e. Maths that uses letters (like $x$ or $y$ ) in place of unknown values
f. The result of multiplying two or more numbers
g. It has no size, only position
h. Another word for average
i. The $\qquad$ for the area of a circle is $\pi r^{2}$
j. The amount of turn between two straight lines with a common vertex
